Comparing to all the Construct 2 clones this one is a HUGE step forward, so you can easily rate it 4/10 not 2/10 because:

-Even with bad platforming part (all levels are the same, 1 screen wide etc, bad platforms placement), you can finally do something aside of pointless jumping around

+you can actually shoot the zombies.

+you have a life-bar instead of 1-hit-death

+More or less various backgrounds

But still, this game has its own flaws

-you collect ammo packs instead of gold coins or some other crap and at the same time, those ammo packs don't refill your ammo

-I have no sound in game. In a third part of a simple platformer zombies are added: this is a great satire on Call of Duty series).

Don't buy if your looking for cards, says they have cards...bought this at 90% off. 11.2 hours I will never get back
